Summary

Hey There!!! I'm JANAK! Currently attending the Janamaitri Multiple Campus (JMC) for Bachelor of Computer Applications (BCA) program. I completed my +2 from Pentagon International College in science stream (Physics). I'm a passionate self-taught Web developer with couple of year experience and aim is to be a Full Stack Web Developer and successful computer programmer. I'm a part-time blogger and youtuber about various technologies and experiences. Also Familiar in linux environment, I started coding frontend development as a hobby and designing and implementing beautiful backend and frontend systems using the various JavaScript frameworks out there. I love to spend time designing and developing user interfaces, testing, debugging, writing, learning, and discussing new technologies. I have rich experience in web site design and building and customization, also I am good at WordPress. I enjoy discovering new coding skills and researching new technical knowledge and turning complex problems into simple, beautiful and intuitive designs.

Education

Janamaitri Multiple Campus
Bachelor in Computer Application (BCA), Information Technology (IT)
Mar 2021 - Mar 2025

Pentagon International College
Intermediate (+2), Physics
2018 - 2020
